Authors

Abbott, G. P.: Adult equivalent of Fröhlich syndrome.....475
Abderhalden, E.: Thyroidless and normal guinea-pigs with a scorbutic diet 169
— (Gellhorn): Effect of serum on adrenin, action on heart..469
— — Increase of adrenin action by amino-acids 681
— (Schiffmann): Substances with specific action prepared from single organs.....710
— (Wertheimer): Influence of diet on insulin action.....697
Abel, J. J. (Geiling): Active principle of infundibular portion of pituitary in diabetes insipidus.476
— (Rouiller and Geiling): Oxytocic-pressor-diuretic principle of infundibular portion of pituitary 476
Abelin, I. (Scheinfinkel): Metabolism and metamorphosis after thyroid or iodine.....710
Abelin, J.: Active thyroid in animal body 169
— cf. Nakahayshi 688
Adachi. A.: Effect of various drugs and adrenalin on bile flow 255
Adams, E. W. (Crossley): Epidemic of acute goiter in children's home 603
Adams, S. F.: Food mixtures for diabetics 273
— cf. Wilder 164, 706
Adkins, W. N. (Landham): Thymic involvement in pertussis..869
Ahlgren, G.: Seat of action of insulin 477
Allan, F. N.: Glucose equivalent of insulin 585
Allen, Bennet M.: Brain development in Anuran larvae after thyroid or pituitary gland removal 639
Allen, E.: Ovogenesis during sexual maturity 689
— Racial and familial cycle inheritance and other evidence from mouse concerning cause of oestrus.....472
Allen, E. (Doisy): Hormonal induction of sexual maturity....853
— cf. Doisy 574
Allen, F. M.: Diabetes and phlorizin glycosuria 275
— Diabetic acidosis and coma in dogs 585
— Fat intoxication 586
— Influence of fat and total calories on diabetes and insulin requirement 274
— Relation of adrenals to diabetes 275
— (Sherrill): Diet treatment of diabetes insipidus 270
— — Insulin in diabetic treatment 148
Allen, R. S.: cf. Clough.....278
— cf. Murlin.....331, 595
— cf. Piper 596
Alles, G. A. (Winegarden): Oxidation of glucose by iodine in presence of insulin.....276
Altenburger, H.: Castration and adrenals 681
do Amaral, Afranio: Hyperovarianism and its specific treatment 652
American Association for the Study of Goiter: Proceedings of first annual meeting.....347
Anders, J. M.: Obesity and its treatment 850
— (Jameson): Relation of acromegaly to thyroid disease 170
Apert. E.: Successful treatment of infantile diabetes with insulin 586
— (Charbanier): Diabetes with infantilism treated with insulin 149
Ardin-Delteil (Azoulay and Lagrot): Paget's disease.....684
Arloing, F. (Dufourt): Effect of adrenalin on malnourished pigeons 132

Arn, E. A.: An analysis of types of goiter with indications for treatment 375
Arndt, H. J.: Parathyroids in anthropoid apes 600
Arnold, R. (Giey): Iodine content of thyroid of goat.....285
Aron, M.: Endocrine function of the pancreas 149
— Glycemic regulation in the embryo 149
— (Stulz and Simon): Functioning of fetal pancreas after ablation of maternal pancreas 697
Arrillaga, F. C. (Izzo): Adrenal insufficiency following irradiation of tumor.....845
Artom, C.: Modifications of lipoid content of liver after thyroidectomy 604
— Parathyroid function and enteric secretion 166
Artom, G.: Lipoid content of liver after thyroidectomy.....170
Asakawa, O.: cf. Sakaguchi.....703
Ashby, J. S.: Insulin-like substance in kidney, spleen and muscle 276
Asher, L.: cf. Furuya.....686, 713
— cf. Jino 611
— cf. Rohrer 615
— cf. Takahashi 603
— cf. Tsukamoto 567
Aubertin, E.: cf. Mauriac.....865
Australian Journal of Experimental Biology and Medical Science (Book Review).....561
Ayres, S.: Vitiligo and alopecia areata with severe hyperthyroidism 170
Azoulay, R.: cf. Ardin-Delteil...684
Azuma, R. (Hartree): Absence of effect of insulin on heat production of muscle in frog....586

Babcock, W. Wayne: Diagnostic clinic 456
Baccarani, U.: Thyroid treatment of early stages of arthritis....710
Bacherer, H.: Influence of endocrine organ on teeth (Book Review) 468
Bacon, F. J.: cf. Leake.....687
Bainbridge, W. S.: Thyroid gland and toxemias 285
Ball, C. R.: Thyroid and nervous system 711
Ballin, M. (Moehlig): Simultaneous occurrence of tumors in thyroid, uterus and breast..170
Banting, F. G. (Campbell and Fletcher): Insulin in treatment of diabetes.....150
— (Dobbin and Gilchrist): Quantitative parallelism of insulin in man, dog and rabbit.150
— (Gairns): Factors influencing production of insulin.....586
— cf. McPhredran 159
Barach, J. H.: Normal standards in treatment of 100 cases of diabetes with insulin.....477
— Tonsil thyroid syndrome in the female 170
Barber, W. H.: Effect of polar ligation upon the remaining lobe of thyroid gland after the removal of one lobe.....604
Barborka, C. J.: cf. Wilder.....164
Bardier, E. (Stillmunkès): Adrenalin-chloroform syncope ...255
Barinetti: Hypophysis and obesity 145
Barker, L. F.: Exophthalmic goiter 605
Barkman, A.: Myxedema with symptoms referable to central nervous system 285
Barlow, R. A: Vestibular nerve function in myxedema.....171
Barr, J.: Hyper- and hypo-thyroidism, cause, prevention and treatment 285
Barr, P.: cf. Himwich.....591
Baruk, H.: cf. Lesné.....566
Bassoe, P.: Endocrine organs and epilepsy 262
Bauer, Julius: Individual constitution and endocrine glands..297
Bauer, R.: Influence of ovary extract on goiter.....171
Baumgartner, E. A. (Webb and Schoonmaker): Auricular fibrilation in goiter.....605
Belfield, W. T.: Some phases of rejuvenation 570
Bell, A. W.: cf. Ellingson.....600
Bell, W.: cf. Blatherwick..587, 588
Benatt, A.: cf. Brugsch.....698
Benoit, J.: Action of x-ray on cock's testicle 573
— Experimental transformation of sex in domestic fowl by ovariotomy 472
— Origin of interstitial cells of testes 690
Berkeley, W. W.: Thyroid therapeutics 286
Berman, L.: Effect of fresh adrenal substance on conduct of young white rats.....563
Bernard, S.: cf. Claude.....486

Best, C. H.: Recent work on insulin 618
— (Scott): Possible sources of insulin 276
— (Smith and Scott): Insulin in tissues other than pancreas.587
— — Insulin-like material in various tissue 698
— cf. Little 569
Beumer, H. (Lehman): Cholesterin formation in animal body.470
v. Beznak, A.: Rôle of adrenals in vitamin B deficiency.....255
Bierman, M. I.: Roentgen rays in thyroid therapy 606
Bierry, H.: cf. Desgrez.....699
Bindi, N.: Action of adrenalin on human digestion 681
Black, D. R.: Effect of high fat feeding in diabetes.....587
Blair, Edward G.: Secondary operations for goiter.....448
Blanco-Soler, C.: cf. Bonilla....237
Blatherwick, N. R. (Bell and Hill): Effects of insulin on phosphorus metabolism of normal individuals 587
— (Long, Bell, Maxwell and Hill): Some factors influencing the response of rabbits to insulin.....588
— (Maxwell and Long): Effect of oral administration of alcohol upon blood sugar..479
— cf. Sansum 597
Bliss, S. W.: cf. Cannon....126, 846
Blum, L.: Lingual administration of insulin.....860
— (Carlier and Schwab): Treatment of diabetes with insulin 479
— (Schwab): Acromegalic diabetes and insulin.....150
Blumgarten, A. S.: Clinical evidence of adrenal injury in infections 125
Boas, E. P.: Cardiac disorders accompanying exophthalmic goiter 171
Bodansky, A.: Effect of thyroidectomy upon reaction to insulin 287
— Effect of thyroxin on blood sugar of sheep.....872
— (Simpson): Reaction of normal human subjects to intravenous injections of insulin 588
van Bogaert: cf. Labbé.....585
Bohan, P. T.: Ligneous thyroiditis with high-grade dental infection 485
Bolt, W.: Mitochondria content of thyroid as index of activity of gland 711
Bonilla, E. (Blanco Soler): Case of postoperative myxedema...237
Bonn, H. K.: Preliminary thyroid operations 872
Boock, E. M.: cf. Dudley.....154
Boohler, L. E.: cf. Myers.....701
Boothby, Walter M.: Use of iodine in exophthalmic goiter...727
— (Rowntree): Drugs and basal metabolism 262
— (Sandiford): Calorigenic action of adrenalin chloride..132
— — Food requirements in hyperthyroidism 171
— — Integration of catalytic power of thyroxin and adrenalin as calorigenic agents. Rate of their destruction 563
— (Wilder): Effect of insulin on heat production 698
— cf. Plummer 185
— cf. Wilder 164
— cf. Willius 294
Bornstein, A. (Holm): Parasympathetic glycemia mechanism..125
— — Results of adrenal extirpation 563
Bouckaert, J.: cf. Noyons.....595
Boudot, R.: Myxedema with glycosuria 172
Bourne, A. W. (Wilson): Thyroid and pelvic organs.....287
Bowen, B. D.: cf. Cori.....278
Bower, J. O. (Clark): Action of buried radium on diseased thyroids in man.....288
Bowie, D. J. (Robinson): Muscle degeneration from injection of insulin 150
Boycott, A. E. (Kellaway): Compensatory hypertrophy of adrenals 845
Boyd, C. S.: Dystrophia adiposogenitalis in two-year-old child.695
Braeucker, W.: Nerves of the thymus 568
Bram, I.: Exophthalmic goiter: problem of recovery.....172
Bravo (Frias): Treatment of congenital goiter 172
Breitner, B.: Influence of iodine on thyroid 711
Brindeau, A.: Treatment of apparent death in new-born with cardiac injection of adrenalin.564
Brown, W. L.: Minor endocrine disturbances. Their metabolic and psychical effects.....471

Browne, F. J.: Induction of labor by quinine and pituitrin.....581
Brugsch, T. (Benatt, Horsters and Katz): Insulin in intermediary carbohydrate metabolism 698
— (Horsters): Insulin-like substance 684
Büchner, S. (Grafe): Studies in tissue respiration. Method of action of insulin.....860
Bulatao, E. (Carlson): Blood sugar and gastric hunger contraction 860
Bullowa, J. G. M.: Acute thyroiditis 172
Burn, J. H.: Modification of the action of insulin by pituitary extract and other substances..150
— Relation of pituitary extract to fall of blood sugar produced by insulin 145

Campbell, J. A. (Dudley): Effect of insulin on O_2 and CO_2 tension 699
Campbell, W. R.: Ketosis, acidosis and coma treated by insulin 151
— cf. Banting 151
— cf. Fletcher 154
Camus, J. (Gournay and Fiterre): Mechanism of diabetes insipidus 476
Canelli, A. F.: Menstruation during lactation 573
Cannata, S.: Addison's disease in infant 126
Cannon, W. B. (Bliss and McIver): Effect of blood-sugar level on adrenal secretion and sympathetic activity 126
— (McIver and Bliss): Sympathetic and adrenal mechanism for mobilizing sugar.846
— (Pereira): Adrenal secretion in fever 845
— (Querido): Adrenal secretion and body temperature.....845
— (Smith): Thyroid secretion following stimulation of cervical sympathetic 173
Caridroit, F.: cf. Pizard.....576
Carlier: cf. Blum.....479
Carlson, A. J.: cf. Bulatao.....860
— cf. Hektoen 179
Carrasco Formiguera, R.: Influence of insulin on menstruation in diabetes 588
— cf. Gonzalez 481
Castaldi, L. (Pighini, Cerletti, Rossi and Lugaro): Functions and dysfunctions of the thyroid (Book Review).....562
Castaldo, F.: cf. Novaro.....263
Castle, W. F.: Endocrine causation of scleroderma, including morphea 134
Centurión, V.: Stimulation of interstitial glands by ligation of vas deferens 141
Cerletti, U.: cf. Castaldi.....562
Chabanier, H. (Lobo-Onell and Lebert): Action of alcoholic extract of pancreas (insulin) on critical glycemia.....152
— — Diabetes and pancreatic extract (insulin) 152
— — Titration and toxicity of insulin 152
Chabrol, E. (Haguenau): Masculine osteomalacia, endocrine glands 134
Chaney, W. C.: Tendon reflexes in myxedema: a valuable aid in diagnosis 711
Champy, Chr.: Sex characteristics and sex hormone (Book Review) 844
Chandler, Joseph: cf. Rowe.....803
Charbanier: cf. Apert.....149
Charlton, Paul H.: A case of diabetes, refractory to insulin, relieved by antiluetic treatment.235
— (Lee): Effect of feeding mammary gland substance.....770
— (Rickey): Clinical study of effects of mammary gland substance upon uterine function 762
Chatillon, F.: Hypophyseal extracts in obstetrics.....270
Charvát, J.: Physiology of thyroid 712
Claude, H. (Bernard): Myxedema and mental changes.....486
Clark, G. A.: Interrelation of parathyroids, suprarenals and pancreas 568
Clark, J. H.: cf. Bower.....288
Clark, L. P. : Epileptoid or fainting attacks in hypopituitarism.145
Clayton, M. M.: cf. Haller.....608
Clemente, G.: Pineal gland secretion in man and some animals.603
Clevers (Goormatigh): Adrenal cortex in diphtheria.....126
Clivio, C.: Thyroid tumors of endothelial origin 173
Clough, H. A.: cf. Murlin.....160
Clough, H. D. (Allen and Root): Rabbit as a test animal for insulin 278
Coates, Ida: cf. Piney.....858

Cobb, J. G.: Present position of organotherapy 135
Cohoe, B. A.: The present status of endocrine therapy 135
Cole, W.: Adolescent hyperthyroidism 712
Collett, A.: Genito suprarenal syndrome in girl 1½ years old, with successful operation 681
Collip, J. B.: Glucokinin. Synthesis of hypoglycemia-producing principle in normal animal. Animal passage of the principle 277
— Glucokinin 152
Cordier, V.: Basal metabolism in incipient tuberculosis 174
Cori, C. F. (Cori and Poucher): Sugar content of liver, glycogen synthesis and splitting 277
— (Poucher and Bowen): Blood sugar concentration in arterial and venous blood of diabetics during insulin action 278
Cori, G. T.: cf. Cori 277
Cormack, J. G.: Pituitrin in treatment of asphyxia pallida neonatorum 476
Corner, G. W.: Cyclic variation in uterine and tubal contraction waves 472
Coronedi, G.: Therapeutic application of endocrinology (Book Review) 124
Corwin, Eugenia: cf. Geyelin .. 155
Cotte, G.: Rôle of corpus luteum in menstruation 573
Coulaud, E.: Influence of irradiation of thyroid on suprarenals 174
— Ovarian opotherapy in goiter. 607
